Advertising for fraternal orders or societies charging a regular initiation fee and dues, no discount. Religious and benevolent orders will be charged for all advertising when an admission or other charge is made, at the regular rates. When no admission is charged, space to the amount of fifty lines reading will be allowed without charge. All additional at regular rates.

The Tidings has a greater circulation in Ashland and its trade territory than all other Jackson county papers combined.

Entered at the Ashland, Oregon, Postoffice as second-class mail matter.

## EVERYMAN'S PLEDGE

"America shall win this war!  
Therefore, I will work, I will save, I will sacrifice, I will endure, I will fight—cheerfully and to my utmost—as if the outcome of the struggle depends upon me alone."

## FOR CRIPPLED SOLDIERS.

(By Arthur Brisbane.)

Here is the latest queer idea from the brain of Henry Ford, of Detroit. After you read it you will understand why certain individuals feel that Ford is unfit to sit in the United States senate. (He will sit there, by the way, very soon.)

Ford believes that soldiers, wounded even seriously, might make a living for themselves and their families after the war if they could get a small farm and a start in life.

Ford does not merely talk when an idea occurs to him. He has asked Secretary Lane to pick out an average intelligent crippled soldier for an experiment. Ford will do the rest.

He will supply a ten-acre farm, cutting it out of his own good farm in Michigan. He will supply the soldier-farmer with up-to-date farm machinery, tools, buildings, house and barn. He will start in at once to see what a crippled American soldier can do for himself and his family with that kind of a start.

Ford's idea is that it is better to help a crippled man make a living by a reasonable investment than to keep him a pauper in some poorhouse or half-starved on a pension of \$20 a month.

When he goes to the senate Ford will tell the other senators that what he is going to do on a small scale the country ought to do on a large scale.

There are millions of acres of land uncultivated in this country, much of it belonging to the government. There are untold millions of acres that could be reclaimed by irrigation or drainage.

Ford's idea—and the general public shares it—would be to let soldiers own and cultivate land, increase the nation's wealth, add to the food supply, and become independent, prosperous, land-owning citizens.

A man like Ford, with "queer ideas" of this kind, is not fit to be a United States senator, in the opinion of newspapers and others controlled by corporations or by prejudice.

We have had senators that voted

MADELYN 2½ IN. DEVON 24 IN.

# ARROW COLLARS

CLUETT, PEABODY & CO., INC. MAKERS

cheerfully to give millions of acres of land to railroads.

We have had senators that would enthusiastically give water power, mining rights, oil rights, public wealth in billions to big men and big corporations.

The presence of such men in the senate seems quite appropriate to those that dislike Henry Ford.

James Barrett, Prop. Phone 188.

## 5000 PEOPLE NEEDED IN HOOD RIVER ORCHARDS

The United States employment service will be in need of about 5000 apple pickers, packers and sorters, to be distributed through the Hood River valley—about 62 miles east of Portland. Picking will begin about the 25th of September, and will be at its height by the first week in October.

The associations at Hood River have stated that the wages for apple pickers will be about as follows:

Able-bodied men, \$3.50 to \$4.00 per day.

Able-bodied women, \$3.00 per day.

The higher figure applies to active and experienced help.

Active people are desired for this work; small children, aged persons and cripples cannot be utilized. Boys and girls over 14 years of age are particularly desirable and can make good wages. Women and girls are wanted for sorters in the packing houses, and will be paid the same as active pickers. Packers will receive from five to seven cents per box, according to local conditions. Some growers will pay their pickers by the box, which will not be less than five cents.

Picking will last from one to two months, and in some instances longer; sorting and packing in some of the larger apple houses will last from one to two and one-half months. All families are advised to take camping outfits, and those who have tents should take them, although a number of tents can be rented by the month at Hood River at a reasonable figure, and a few of the growers furnish housing accommodations. Sleeping quarters and mess house board are furnished for men on some of the large ranches, but the men should take their own bedding.

It is suggested that women and girls could wear feminals to advantage, and they are advised to wear heavy shoes and leggings, as most of the orchards are seeded in clover and are wet underfoot for an hour or so in the mornings.

The service will open a branch office in Hood River about the 20th of September, in charge of Examiner C. B. Green, who will assist the employer and employe in getting together.

The pickers registering in Portland

will be directed to our Hood River office for assignment. Pickers will be advised, through the Portland office, just when to proceed to Hood River.

For further particulars call at 247 Davis street, Portland, Oregon, or Phone Main 984 and A-4125.

WILFRED F. SMITH,  
State Director.

## "SAVE THE HERDS" DRIVE HAS BEEN LAUNCHED

Because there is at this time a far-reaching need of a greater appreciation of the value of dairies as an economic feature in the progress and growth of this state, a committee headed by some of the leading scientific and business men of Oregon has arranged for a state-wide educational campaign that is now being launched with headquarters in Portland, Oregon. O. D. Center, of O. A. C., is president of the council, and E. C. Callaway, of the Portland bureau of health, is secretary.

Foreign dairy conditions are indicated by some of the experiences reported by the Countess Madeleine de Bryas, who recently visited Oregon and who was sent out by the committee on public information, Washington, D. C., the countess told of her work as a Red Cross nurse in France and conditions she saw there. She says the Germans killed off all cattle before abandoning captured French territory, knowing that in so doing, they practically killed the children. All who have returned from the countries of Europe tell of the great lack of dairy products in those countries, and how people across the seas are looking to the United States for foods, particularly dairy foods, as well as for men and munitions. Scarcity of feed for stock and the great demand for meat have resulted in the butchering of dairy cattle throughout Europe, and it will be many years after the war is over before the herds can be replenished and brought back to their normal standard.

For this reason it is up to America, experts agree, to not only maintain the present herds, but to increase them in order that butter, cheese, evaporated milk and other exportable dairy supplies can be sent abroad to our allies. Evaporated, or condensed milk, is today dependent upon by the children of Europe to provide the proper dairy food element in their diet.

In a nutshell, the situation in this country may be summed up as follows: The public must be encouraged to use more milk and dairy products of all kinds as a health and economic measure; the dairies must be encouraged to keep their herd together, looking to the future and relying on the fact that by so doing so they will eventually come out better financially, than if they now dispose of their cattle.

"By their fruits ye shall know them." Whatever the principles may be which resulted in the bombing of the Federal building in Chicago, they are mighty poor principles to hold.

Your income will probably be subject to taxation for several years after the war. Do not repine, but be thankful that it is large enough for you and uncle Sam too.

Old papers for sale at the Tidings office.

## AMERICANS IN FRANCE AND AMERICANS AT HOME

In speaking of the American soldiers in France, Premier Clemenceau said in the French House of Deputies:

"The French generals tell me the victory was peculiarly American in its conception and execution. I am much impressed with the magnificent discipline, daring and bravery of the American troops."

David Lloyd-George, Prime Minister of England, in speaking of our soldiers, said:

"We know that when they appear in the battle line they fight in a way worthy of the great traditions of their great country. This is in itself a source of support, sustenance and encouragement to all those who with anxious hearts are watching the conflict going on in France."

The English and French Prime Ministers have only expressed the opinion of the world of the Americans in France. Our soldiers' part in the great drive against the Germans is worthy of our great nation. On September 28 begins the campaign for the Fourth Liberty Loan, the drive toward victory which it is the part of the Americans at home to make a triumph and success. If we do our part as well as our soldiers do theirs, our response will be worthy of our great country and of our soldiers and sailors. And every good American will do his or her best to make it so.

## TO FINANCE MOVEMENT OF THIS YEAR'S CROPS

The War Finance Corporation of the Treasury Department, supplementing the work of the Federal Reserve banks in rediscounting commercial paper, will make advances under section 7 of the act creating the corporation to banks to assist them in financing the moving of this year's crop. Advances to both member and non-member banks are contemplated in the plan.

The fiscal agents of the corporation for this financing are the Federal Reserve banks of Richmond, Atlanta, St. Louis, Minneapolis, Kansas City, Dallas and San Francisco.

The advances are limited to 75 per cent of the amount of the loan made by the banks for the crop movement or to 100 per cent in case a bank itself furnishes sufficient additional collateral security.

Inasmuch as the advances are to be for crop-moving purposes only, these loans will be limited to four months. The rate of interest will be 5 per cent. Full information can be secured from Federal Reserve banks.

## THE OREGON AGRICULTURAL COLLEGE

which the United States authorities have ranked as one of the fifteen distinguished institutions of the country for excellence in military training, has responded to the call. The College is distinguished not only for its military instruction, but

DISTINGUISHED ALSO FOR—

- Its strong industrial courses for men and for women:
- In Agriculture, Commerce, Engineering, Forestry, Home Economics, Mining, Pharmacy, and Vocational Education.
- Its wholesome, purposeful student life.
- Its democratic college spirit.
- Its successful graduates.

Students enrolled last year, 3453; stars on its service flag, 1258, over forty percent representing officers.

College opens September 23, 1918

For catalog, new Illustrated Booklet, and other information write to the Registrar, Corvallis, Oregon

## Thirty Feet of Danger

The intestinal canal is an important part of every individual, important every inch of its thirty feet.

The upper portion of it is intended for the digestion of food and absorption of its useful portions. But the lower part is concerned with the elimination of waste material.

It is, in other words, the great sewer of the body. The more food eaten, the greater the waste. If a sewer becomes clogged up, its contents stagnate and become more and more dangerous.

Constipation means more than failure to evacuate the bowels regularly and thoroughly. It means stagnation, increased fermentation, putrefaction and germ action. Increased amounts of irritating and poisonous substances are formed. Absorption of these into the blood follows. Self-poisoning results.

Danger, disorder, disease, or even death follow.

Pills, purgative mineral waters, castor oil, salts, etc., do not cure constipation or prevent its consequences. They make it worse because they do not only irritate the bowels, but they "wear out" in effect and so must be taken in increasing doses, making constipation a habit.

But the Nujol Treatment for Constipation overcomes constipation by helping Nature re-establish easy, daily, thorough bowel evacuation as "regular as clockwork."

Nujol prevents stagnation and self-poisoning.

Nujol forms no habit, except a natural, healthy habit.

After Nujol has trained the bowels to act, it can be dispensed with.
